## WILSON APPEALS TO "HYPHENATES"

Talks to Three Big Audiences After Invading Chicago.

By H. H. STANBURY.  
(International News Service.)  
Chicago, Oct. 19.—President Wilson was greeted by three audiences here today and street crowds which for political enthusiasm and numbers, old timers recalled the days of the contest between Bryan and McKinley in 1896.  
Fifteen thousand people packed the Stock Yard Pavilion tonight and cheered for ten minutes after the Presidential party arrived.  
The speech tonight was a stirring declaration, aggression of new territory and a direct appeal for the so-called hyphenate vote.

**Women Cause Unpleasantness.**  
In the afternoon Mr. Wilson addressed 4,300 nonpartisan women at the Auditorium. At a luncheon reception he urged the Chicago editors to fight for progressive principles in American government and American life.

The only unpleasant incident of the day was when a woman said to have been a member of the Congressional Union, greeted the President with banners inscribed "Why Vote for Wilson, He Is Against Women." Etc.

In the evening, demonstrations of the day, Illinois politicians claimed to have observed a certain drift of sentiment to the Democratic party which may add this State to the Wilson column in November.

Directly addressing newly naturalized citizens at the night meeting, Mr. Wilson said: "A man or woman who has become a naturalized citizen of the United States is not expected to give up his or her race for the race from which he came. He is expected, however, to put allegiance to this country above all else."

"Only by an allegiance felt with every throb of the heart can you properly keep the oath you have taken."

**Must Study U. S. History.**  
"In throwing your lot with us you have undertaken a difficult problem—namely to think first of others. To know how to do this you must study the history of the United States."

"The heart of a nation is just as pure as the hearts of its citizens."  
"This nation must stand for the rights of mankind everywhere. We are prepared to understand other nations because we are drawn from other nations."

The bluejackets killed at Vera Cruz who, Mr. Wilson said, represented the stock of four nations, were praised as ideal citizens because they had been proud to wear the uniform of the United States sailor.

"We should understand the Germans because so many of us come from German stock," the President said. He declared that he should understand other races because he was drawn from other nations.

"We are not interested in the geography of politics but we are interested to see that there are no boundary lines to the rights of humanity."

**MILK STRIKE UNLESS PRICE IS ADVANCED**  
Maryland and Virginia Producers Organizing to Enforce Demands.

Determined to declare a milk strike in Washington, if this course is found necessary in their campaign for what they termed "living prices" for their product, farmers in the ten Maryland and Virginia counties supplying the Washington market are busy forming local associations through which they plan to control the milk supply, according to a statement issued yesterday by E. E. Booker, business manager of the Maryland and Virginia Milk Producers' Association.

During the coming week, it is stated, local associations will be formed at convenient points in the various counties, and every shipper in the various localities will be given an opportunity to join.

The first definite steps in this direction were taken yesterday afternoon at a meeting of the executive committee of the association in the Munsey Building. The committee is made up of men representing the producers in each of the ten counties, and each of these men has been designated chief organizer in his own county. The committee also has addresses of all the milk producers in these counties had been prepared by the business manager, and these lists, together with descriptive literature, were placed in the hands of each of the organizers.

The committee members reported that the farmers are growing desperate over the milk situation and would be eager to participate in any plan whereby they could secure a better price for their product.  
"We are losing money every day we produce milk now," said one big producer at the meeting yesterday. "And with the present high prices of stock feed and supplies, we have either got to have more money or go out of business."

West Orange, N. J., Oct. 19.—Seven hundred of the 6,000 employees of the Thomas A. Edison Company struck today to force reinstatement of N. F. White, a discharged workman, secretary of the Edison Protective Association.

**RECOIL INJURES GUNNER.**  
Millsville, N. J., Oct. 19.—As Russell Smith, 17 years old, of Cumberland, fired both barrels of buckshot at once at a deer the shock of the explosion hurled him against a tree, breaking his right arm and nose and dislocating his shoulder.

## "Internal Explosion" Cures Girl Invalid

(International News Service.)  
Waukegan, Ill., Oct. 19.—Miss Ethel Garnant, 19, is on meat diet after twelve years of subsistence on soup. Miss Garnant, who until recently never had weighed more than thirty-eight pounds, now weighs about 100.  
It was an internal explosion which cured her. Chemicals were forced into her intestines by means of a cord, which she swallowed.  
When the chemicals met they "exploded" and burst a contraction of the intestines which had prevented the girl from digesting solid food since she was 7 years old.

## PAPER COLLECTED

School Children Gather Five Tons on First Day.

Receipts from the first day's sales of old newspapers gathered by the school children of the District will add about \$50 to the playground fund.  
It took three wagons and a force of men all day yesterday to gather up the surplus supply of magazines and old dailies accumulated by the twenty-two schools which took part in the first day's collection.

Schools of the Thompson building, Twelfth and L streets northwest, surpassed those of competing schools. They turned in over 1,100 pounds of newspapers and 248 pounds of old magazines, an aggregate of nearly three-quarters of a ton, which will bring in about \$7 to the fund.

The Thompson School is large in point of numbers, but the smaller schools in the list did as well in proportion. The Gales brought 233 pounds of papers and 41 pounds of magazines; the Abbott, 167 pounds of papers and 36 pounds of magazines; and the Blake, 126 pounds of paper and 30 pounds of magazines.

**Many Tons Weekly.**  
The Franklin, which is the central headquarters of the school authorities, and only has four acres devoted to classes, had a total of 77 pounds of paper and 31 of magazines.

Taking these figures as an average for

## 243 PASSENGERS SAFE WHEN MINE SINKS LINER

Alaunia, Big Cunarder, Goes Down in English Channel.

(By the International News Service.)  
New York, Oct. 19.—The new 13,400-ton armed minelayer and passenger steamer Alaunia of the Cunard line, was sunk today by a mine in the English Channel, between Falmouth and London.

Cable advice received in this city by Charles P. Sumner, general agent of the Cunard Company, stated that Captain H. M. Benson and a majority of the crew were saved, although some still are missing.

The 243 passengers, 185 cabin and 58 steerage, that the Alaunia carried from this port on October 1 were landed at Falmouth on Wednesday night and probably owe their lives to the fact that the Alaunia had a cargo of 10,000 tons of war munitions, but examination of her manifest at the custom house today she sailed yesterday, revealed she had no explosives on board.

The Alaunia left New York on the day that the U-33 arrived at Newport. Her agents considered the postponement of sailing on account of the submarine risk and the value of the liner's cargo. She sailed, however, on schedule time, and news of her safe arrival in England had been anxiously awaited here.

## HUBBY LURED BY AUTO, MINISTER'S WIFE SAYS

Bungalow Also Used to Alienate Affections, She Avers.

(By the International News Service.)

Patterson, a wealthy widow, according to the testimony of Mrs. Leta A. Robinson, who today resumed her testimony in her \$50,000 suit against her rival.

Mrs. Robinson swore the widow began by offering her machine to the clergyman and later, when she met South, turned over her bungalow to the Robinsons. She testified she repeatedly found her husband and Mrs. Patterson in compromising situations.

The Rev. Mr. Robinson, who was formerly pastor of the Asbury Park Congregational Church has not been seen since August of last year.

## ALLIES CONTROL GREEK CAPITAL

French Bayonets Subdue Sullen Crowds in Athens.

(By the International News Service.)  
Paris, Oct. 19.—The allied program with regard to Greece is now nearing the stage of completion.  
While sullen crowds still fill the streets of Athens, the initial excitement following the landing of foreign marines has now died down. The personal plea of King Constantine to a number of the most prominent royalists that the popular manifestations be restrained has had a good effect.

The gleaming bayonets of the French marines, who display no hesitancy in using them, also has had a quieting effect on the rioters, as has the dissipation of the rumor that a fleet of United States battleships is on the way to protect Greece from further neutrality violations.

Meanwhile in the allies' chancelleries, under the main leadership of Premier Briand, of France, the allies are preparing for final action in Greece. This action will not abuse the constitutional liberty of the Greek nation, but is designed to guard the safety of the expeditionary force now on Greek soil.

The recent anti-ally demonstrations are declared to be reason enough why no stone should be left unturned to protect the French, British, Russian, and Serbian soldiers now fighting in Macedonia.

The French marines are now in complete control of Athens. French detachments were landed yesterday and were hissed by a mob which began to close in around them. The marines presented bayonets and rushed the rioters.

The French commander demanded that the parliament and university buildings be turned over to the new landing force as barracks.

It is reported tonight that entente forces are being sent into interior Greece where uprisings are feared. The entire country will practically be placed under martial law.

"In common with many others," said Mr. Willard, "I was anxious to see Col. Roosevelt nominated by the Republican party."

"He was not nominated. I have all my life been a Republican because I have believed generally in the principles for which that party has stood. I believe it affords at the present time the best opportunity for government, and I see no reason why I should change my party."

"I do not care to discuss the Washington conference or the Adamson bill. My position concerning the labor question is fully understood by my colleagues and so far as I know our views are generally in accord."

## Nude Models Cause Stir in Art Class

(International News Service.)  
Philadelphia, Pa., Oct. 19.—Shall models pose in the "altogether," irrespective of the presence of female and male students in the school?

This question is causing a quarrel in the Pennsylvania School of Industrial Art. It cropped up when a man model, posing in the nude, was forced to drape up a bit because two feminine students were ushered into the class. The man set up a wall. They declared it wasn't art.

"Joe," the model, is glad of the change. He says the school room is too draughty with cold weather, coming on and he likes the little drapery.

## FRENCH STRIKE HARD ON SOMME

Series of Attacks Net Substantial Gains, Paris Reports.

(By the International News Service.)  
Paris, Oct. 19.—Closing in on Peronne from the south, the troops of Gen. Foch have maintained for twenty-four hours a series of attacks, all of which have resulted in steady progress. The main blows are being delivered on the Blanche-La-Maconnette front, a sector of about a mile and a half. So far more than 500 prisoners have been taken.

Meanwhile they have firmly consolidated themselves in the ruined village of Sully-Salles, astride the Peronne-Bapaume road, north of the river, while the British, despite stormy weather, have pressed forward some distance in the region of Butte de Warlencourt, a dominating height southwest of Bapaume, the second objective also was repulsed.

The Germans have attempted several severe counter-attacks against Sully-Salles, all of which were repulsed. German counter-attacks against the new British positions in the Butte de Warlencourt region also were repulsed.

The new allied advances mark a further step in the bottling up of Peronne and a direct frontal movement against Bapaume.

Berlin discounts the allied gains, declaring that they were not commensurate to the losses suffered. The German war office asserts that yesterday's attacks marked another tremendous effort to "break through," but that the tenth army, by its tenacious resistance, not only held the German front intact at all but a few minor points, but resulted in sanguinary losses for the allies.

The midnight statement issued at the war office says:  
"North of the Somme the Germans tried vainly about a o'clock in the afternoon to attack our lines northeast of Sully-Salles. Our curtain of fire broke up their unorganized efforts and inflicted heavy losses upon them. The total number of prisoners taken during yesterday's action exceeds by actual count 350, of whom 19 are officers."

## CROZIER CHARGES MAY BRING COURTS-MARTIAL

Civil Prosecutions Also Likely After Probe Ends.

Army officers expressed the opinion yesterday that sensational developments, perhaps with courts-martial and civil prosecutions, may be the result of a special inquiry now going on into charges of improper conduct on the part of Gen. William Crozier, chief of the Bureau of Ordnance of the War Department.

Many army officers resented the recent statements that the Ordnance Department was in collusion with a certain machine gun concern in the disavowal of the Lewis gun, the invention of a retired army officer. A special inquiry was ordered by Secretary of War Baker which is now being conducted by Gen. Earnest A. Garrison, inspector general of the army.

The inquiry, it is understood, was made at the request of Gen. Crozier. Staff officers believe the facts do not warrant the charges of collusion and it is believed the inquiry will follow against officers directly concerned in spreading the reports.

## MABEL BOARDMAN'S HOME ROBBED OF \$500 GEMS

The home of Miss Mabel Boardman, head of the National Red Cross Society, 381 P street northwest, was entered between the hours of 6 and 9 o'clock last night while Miss Boardman and her mother, Mrs. William J. Boardman, were visiting, by thieves, who ransacked the house and stole jewelry valued at nearly \$500 and belonging to Mrs. Boardman.

The thieves got into the house by climbing to the second floor bathroom window which was found open. They went into Mrs. Boardman's room and went through the bureau and dresser there. A side door found unlocked from the inside led to the belief they had left the house by that exit.

## SIX CONVICTS FLEE

One Sing Sing Prisoner Shot Near Rockefeller's.

(By the International News Service.)  
Ossining, N. Y., Oct. 19.—Six prisoners escaped today from Sing Sing prison, the largest jail delivery in the history of the institution.

Tonight at 9 o'clock the leader, Marquis Curtis, was captured by the guards within a quarter of a mile of John D. Rockefeller's estate at Pocantico Hills. Curtis was shot through the stomach when he attempted to open fire on the pursuing guards.

At midnight a number of guards were combing the Rockefeller grounds. It is believed the five other escaped convicts are hiding in the Rockefeller grounds or in the vicinity.

The prisoners motored out of the prison yard in a prison motor truck. Four were concealed in a large tool chest in the trunk. One wore the cap and rubber raincoat of a keeper and the sixth pretended to be no more than he was—a convict in gray uniform.

The prison gate was opened by Keeper Richard Huyler, on duty in a watch tower on the south wall. The office was fooled by the appearance of the bogus keeper on the truck. Huyler has been suspended, pending an investigation.

The six men who escaped were: Marquis Curtis, serving thirteen years for robbery and assault, who had been in advance; Frank Lutz, a "lifer" for murder, and a member of the executive committee of the Mutual Welfare League; Thomas Hyland, also a "lifer"; William Tammany, robber and member of the executive committee of the Mutual Welfare League; William Watson, robber, and Albert Steinauer, also a robber.

## "OLD GUARD" PARLEY DENIED BY WILCOX

McCormick Renews Charges After "Elder" Statesmen Meet.

(By the International News Service.)  
New York, Oct. 19.—Republican National Chairman Wilcox denied conferring with "old guard" leaders today, though W. Murray Clark, Reed Smoot, Bones Pearson, George T. Oliver and other "elder statesmen" were in consultation at the very hotel at which Wilcox is a guest.

Their effort has been concentrated on the fight to elect Hughes campaign.

Despite Wilcox's denial, Democratic National Chairman McCormick denounced the renewed "old guard" activity for Hughes. He said:

"The presence and vigor of the secret work being performed by 'old guard' men for Hughes, especially since the 'big slump,' merely substantiates all I have said all along. If Hughes gets into power the 'old guard' will come back. Progressives know that and they are refusing to establish in control of the government 'elder statesmen' who ran it before Wilson assumed office."

Rev. McDonald, who is 50 years old, was ordained from his first pastorate, in Kalamazoo, Mich., as a result, it was declared, of some of his communicants happening in on the remains of a wine supper in the pastor's study. A pretty member of the choir had been the guest.
